

BANKARSTVO EU I SCG - KONGRUENTNOST I KOMPATIBILNOST -

ŽIVOTA RISTIĆ *

Apstrakt: U savremenom bankarstvu tržišno najrazvijenijih zemalja sveta potpuno je napušteno konzervativno bankarstvo, tako da institucionalno-organizaciona forma ima minoritetnu ulogu. U radu se analizira kongruentnost i kompatibilnosti bankarstva SCG sa bankarstvom najrazvijenijih tržišnih privreda, prvenstveno SAD i EU, i to s funkcionalnog aspekta (portfolio investiranja) ovih sistema, a ne s aspekta njihove organizaciono-institucionalne strukture.

Ključne reči: bankarstvo, banka, direktive EU, multinacionalna banka, trgovački oblige limit.

Abstract: In the contemporary banking trade the most development countries in the world, it is totally unattended conservative banking, so that institutional-organizational form has minority role. In this article it is analyzed congregation and compatibility of banking in SCG with banking of the most development trade economies, primarily in USA and EU, and from the functional aspect (portfolio of investment) of those systems, and not from aspect of their organization-institutional structure.

Key Words: Banking, bank, directive EU, multinational bank, trade oblige limit.
